Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 3-6 and claim 5, lines 4-7, the recitation "divides the image data received into a plurality of divided data, the number of divided data being less than a predetermined number of data that can be processed in parallel at a time" is unclear as to whether the recited division divides the sum total of image data received from the previously recited plurality of input channels or divides the image data received from each of the previously recited plurality of input channels.

In claim 6, lines 2-5 and claim 10, lines 3-6, the recitation "dividing the image data received into a plurality of divided data, the number of divided data being less than a predetermined number of data that can be processed in parallel at a time" is unclear as to whether the recited division divides

the sum total of image data received from the previously recited plurality of input channels or divides the image data received from each of the previously recited plurality of input channels.

The recited division of image data appears to apply to both the total received image data and to the image data of each channel.

Allowable Subject Matter

3. Claims 1-13, insofar as they are understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. The following is a statement of reasons for the indication of allowable subject matter:

The art of record does not teach or suggest the (apparently) recited arrangement of receiving image data via a plurality of image channels, dividing the image data of each channel and the image data totality into a number of divided data less than a predetermined number of data that can be simultaneously processed in parallel, and subjecting the divided data to sequential processing while switching the divided image data for the image input channels.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any inquiry concerning the contents of this communication or earlier communications from the examiner should be directed to Stephen M. Brinich at 571-272-7430.
